

## Word Families

Here are 38 rimes (word families) that make up 654 different one-syllable words (*as identified by Edward Fry*). Studying these common phonograms will also help students decode multi-syllable words.

ay    ill    ip    at    am    ag    ack    ank    lck    ell  
ot    ing    ap    unk    ail    ain    eed    y    out    ug  
op    in    an    est    ink    ow    ew    ore    ed    ab  
ob    ock    ake    ine    ight    im    uck    um
